**Question 1**

For those engineers mobilizing themselves abroad, kindly proceed to clarifications about the requirement for proving their registration in the professional chamber of their country for the case that this registration does not constitute a prerequisite for exercising their profession in their country (e.g. Germany) and, thus, they may not be registered therein.

**Response 1**

It is clarified that engineers mobilizing themselves in countries wherein their registration in the pertinent professional chamber is not mandatory for the exercise of their profession are also accepted.

**Clarification 1**
